WELCOME

Art of Private Shaking Glass & Bar Supply GmbH count more than 80 pairs of helpful hands in our companies around Europe.

January 2004 we have settled our first subsidiary in Amsterdam, The Netherlands, 2007 our second in Warsaw, Poland and 2009 in Prague, Czech Republic, 2010 APS Stuttgart, 2012 in Kalingrad, Russia and 2014 in Brugge, Belgium.

Through our sources around the world we guarantee best value prices. We do many MTO “made to order” items as custom bar mats, stirrers, imprinted straws, vinyl and s/s shakers, holders for napkins, special pourers, ice buckets and other bar items. We love the challenge to satisfy B2B customer’s requirements.

We distribute all our products around Europe through alliance partners in Sweden, France, Switzerland, Spain and the UK in the same way as we do with our own subsidiaries. This alliance group helps to compare notes of the customer needs around Europe.

Within nearly 25 years we have gained experience and knowledge by travelling, sourcing and communicating with suppliers and customers.

This is one strong part of our today’s professional competence.

Adulto Burns Dispenser

The Adulto Burns Dispenser contains the Sterikool range of burns products. This non-medicated range is made up of sterile gelled water wraps which cool by constant evaporation, lowering the skin temperature after burn injury and preventing further damage to the skin by transferring heat away from the burn area. Furthermore, Sterikool reduces pain in partial thickness burns, by protecting the exposed nerve endings from the environment.

HBS1200-CE • Revolutionary
Get the right portion of ice every time with the Revolution™ portion system.

- **Revolution™ Portion System** - For maximum accuracy, this unique ice portioning system counts the number of times the agitator passes the shaver blade. Regardless of the motor load, the correct amount of ice comes out every time! Systems that calculate portions by time or weight may not be delivering consistent drink quality to your customers.
- **Double-Wall Hopper** - Insulated for quiet operation and to keep ice cold.
- **3-Way Sensor Technology** - Jar pad sensor prevents operation when container is not in place; hopper sensor prevents operation when lid is not in place. Drain sensor indicates if water is backed up in the drain. This alerts the operator to check the drain line before a messy water backup.
- **Automatic Cycle Buttons** - Let operators select serving size and number of servings for precise results.
- **Specifications:**
Standard: Unit comes with base, ice chute, 2 piece hopper with lid, 64 oz. polycarbonate container & leveling feet
- **Controls:** Touchpad
- **Motor:** 2250 Watt
- **Electrical:** 220 V, 60 Hz

HBH850-CE Summit@Blender

- **Wave~Action™ System***

- **Hundreds of Pre-Programmed Cycles** - Reduces the need to select different cycles for different drinks to free up decision-making time.
- **Automatic Shutoff** - As soon as the mixture reaches the perfect creamy drink profile/consistency, the blender stops to help prevent over- and under-blending.
- **Cavitation Control** - Detects when cavitation occurs and prompts the operator to add more liquid. Keeps the operator from spending time watching the blender and from serving a bad drink.
- **Airflow Baffle** - Constantly circulates cool air around the motor for back-to-back blending and longer blender life.
- **Jar Pad Sensor** - Turns off motor when container is not in place to reduce grinding and „wear and tear“ from misuse.

Safedge® Rim Guarantee ●

For over 70 years, Libbey's proven commitment to quality has been backed by our well-known guarantee, "a new glass if the rim of a Safedge glass chips." If the rim of any glass covered by the safedge guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

Finedge® ▲

Finedge glassware features a minimum bead and is available on a variety of tumblers and stemware. This finely rimmed glass-ware brings subtle beauty to any establishment.

Safedge® Rim and Foot Guarantee ■

If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

This guarantee covers such lines as Embassy, Embassy Royale, Lexington, Catalina, Teardrop, Perception, etc. This guarantee does not cover breakage.

Heat-Treated Glassware ★

Libbey's heat-treated tumblers and stemware are created through a special heating and rapid cooling process after the glass is formed. This secondary process on the "blown" glassware is performed only on the upper portion of the glass where most abuse occurs.

Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock and is recommended for fast service cycle operations.

Sheer Rim/D.T.E.® ✕

Libbey's Sheer Rim/D.T.E. (Dura Temp Edge) stemware and tumblers feature a beardless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service, while still maintaining longer service life. Sheer Rim/D.T.E. Tumblers and Stemware are guaranteed against chipping of the Rim.

DuraTuff® +

The Libbey DuraTuff treatment is a special thermal afterprocess for „pressed“ tumblers and stemware such as Gibraltar, Inverness, Everest, Paneled Tumbler, Dakota and Endeavour. The DuraTuff process is performed only on the upper portion of pressed tumblers and stemware to increase their resistance to thermal and mechanical shock. Libbey's DuraTuff process produces durable glassware with prolonged service life for the foodservice industry. Look for the DuraTuff name embossed on all Libbey DuraTuff products.

be unique!

Having your own logo on a bar tool or glasses gives your personal image a unique character.

Since there are so many different shapes of glasses there are quite a few options for placing the logo at the best position. The best position also depends on the shape of the logo and of the number of colours.

If you already have a special glass in mind you only have to send us your logo and we can create a digital preview of what the glass will look like at the end.

Of course there are many many more tools we can print on. Here we only give you an idea of what is possible.

Custom-made stirrers. We print stirrers that we have on stock within one week from 1000pcs. up. Custom made moulds are available for a minimum of 50.000pcs.

Print on Vinyl
Barblades with vinyl coating are perfect as a gift for promotional business.

We are able to print logos which look like they are laser engraved. This special printing technique is done by silk screen process. Different colours are also available and much less in price compared to high price laser engraving. We print on stainless steel with pad- and silk screen machines. Due to a special pre-treatment long lasting prints are possible even on highly polished surfaces like shakers. Multi-coloured logos are also possible. A permanent logo is achieved by laser engraving on stainless steel products. We can also polish after laser application for a more subtle appearance of your logo – ask your sales person for details.

custom-made glasses

1 Colour
Every Pantone Colour
is possible.

3 Colours
Silver and gold are
also possible.

2 Colours
90% of all our customers
have 2-colour printings.

4 Colours
Silver and gold are

Satin Etch
Looks like engraved or etched. As a very popular trend continues, we keep track of our customer's wishes. „Less is often more“. Instead of printing multi coloured logos with too much details, we print a special colour named satin etch. This subtle colour can range from solid white to nearly transparent. This look gives the glass an elegant attitude.

Special shapes and positions

No matter if the glass has a handle, is curved or V-shaped or the customer wants an unusual printing position like on the base or vertically; we will find a way.

Outlet & Brand Logo

We produce your glasses with your brand logo, store them and add an outlet logo upon order and ship it individually to the customer in time.

Front & Rear

Small quantities for shows and events.

Irregular Printing Positions

We can reuse the same printing plates for different glasses. You define one size and you can get a series of different glasses with the logo at different positions. By repeat orders or orders with different products, we can provide small qntys even if the printing position is uncommon or irregular.

Capacity Lines

We have a licence to print capacity lines with CE approval.
